Profile

Frontend Developer experienced with Nuxt, Vue, TypeScript, SCSS and Git, focused on building clean, responsive interfaces and integrating APIs, AI features and real-time interactions. Fast learner, adaptable and motivated to contribute to product-driven teams through high-quality, scalable development.

Experience

Alebat Education, Frontend Developer Intern

Mar 2025 – Jun 2025

Collado Villalba, Madrid

- Developed and maintained frontend features using Vue 3 and Nuxt 3 in a production environment.
- Worked with TypeScript and SCSS to build scalable, maintainable UI components with i18n/localization support.
- Collaborated within an agile development team, following best practices and sprint workflows.
- Enhanced code quality and consistency by reviewing teammates' pull requests and applying Clean Code principles across the frontend codebase.

Projects

Vibe Live

Mar 2025

Twitch-like streaming web application built with Nuxt 3 and the Twitch API.

- Built a Twitch-style platform using Nuxt 3, Vue 3, TypeScript, SCSS.
- Integrated the Twitch API for live streams, channel data and dynamic content.
- Implemented responsive layouts and modular components for a smooth UX.
- Versioned with Git/GitHub and deployed on Vercel.

Con lo que hay

Oct 2025

AI-powered recipe generator with multilingual support.

- Developed an AI-powered recipe generator using Nuxt 4, Vue 3, TypeScript and SCSS.
- Implemented a fallback system cycling through multiple OpenRouter AI models.
- Added full ES/EN localization with translated routes and UI text.
- Handled secure server-side API calls with streaming responses and deployed on Vercel.

HandDraw

Jan 2026

Gesture-controlled virtual drawing application using real-time hand tracking.

- Built a gesture-controlled drawing app using Nuxt 4, TypeScript, SCSS.
- Integrated MediaPipe Hands for real-time hand tracking and gesture recognition.
- Implemented drawing, erasing, color switching and canvas clearing via gestures.
- Structured the gesture engine using composables and utilities to ensure scalable, maintainable logic.
- Created a responsive UI layer optimized for real-time gesture interactions.

Education

IES Juan de Herrera, Higher Technician in Web Application Development
San Lorenzo de El Escorial, Madrid

Sept 2023 – Jun 2025

Skills

Frontend: Vue 3, Nuxt 3, Nuxt 4, JavaScript, TypeScript, Bootstrap, SCSS, HTML, CSS, Pinia, RESTful API integration

Backend: Strapi, PHP, Java

Tools: Git, GitHub, ESLint, Stylelint, Prettier, Commitlint, Vercel

Practices: Agile development, team collaboration, code reviews, Clean Code, SOLID, responsive design.

Languages: English (B2 - Upper-Intermediate), Spanish (native)
